Explanatory notes

The total estimated damages of each Proposed Lead Plaintiff have been calculated in the following manner:

- 1) Common stock sold within the Class Period:
Damages with respect to shares sold within the Class Period have been based upon each proposed lead plaintiff's actual loss. Each Proposed Lead Plaintiff's actual loss has been offset by any gain realized by plaintiff as a result of sales made within the Class Period.
- 2) Common stock still held:
Purchase price of FUJI common stock still held minus the mean trading price of FUJI common stock between March 17, 2010 and May 12, 2010 (\$10.95) multiplied by the number of shares held.
- 3) Common stock sold after the Class Period:
For shareholders who sold their shares after the end of the Class Period, their actual (non statutory) losses were calculated.
- 4) All losses have been calculated exclusive of costs, commissions and fees.
